RAILROAD COMMISSION OF TEXAS

JOHN SHARP JAMES E. (JIM) NUGENT KENT HANCE

The Honorable William P. Clements
Governor of Texas
Capitol Station
Austin, Texas 78711

Dear Governor Clements:

The Texas Legislature has charged the Railroad Commission with the responsibility of regulating gas utility and hazardous liquids pipeline companies in Texas. The Commission has original jurisdiction over rates, operations, and services of natural gas sales in unincorporated areas, in addition to appellate review of municipal action. The Commission also has original jurisdiction over intrastate natural gas and hazardous liquids pipeline systems for safety enforcement.

The Gas Utilities Division performs the day-to-day regulatory activities on behalf of the Commission. In this Annual Report for fiscal year 1988, the Gas Utilities Division presents all information as required by law, plus pertinent 1987 data obtained from gas utilities in Texas.

The Gas Utilities Division operated on a budget of $2,218,717 during fiscal year 1988. The division's staff averaged 78 employees. The division was organized into four activities: Auditing, Pipeline Safety, Reports and Statistics, and Program Management. The Utility Rate Analysis Activity was combined with other Legal Sections in the Commission and became a division on September 8, 1987.

The Auditing Section is charged with in-house auditing of annual reports, quarterly tax reports, and other filings required of gas utilities by the Commission. There are approximately 304 gas utilities operating in Texas. In fiscal year 1988, 124 field audits were performed in the offices of gas utilities. The Auditing Section also collects a gross receipts tax of one-fourth of one percent of a utility's gross taxable revenue. In fiscal year 1988, $12,785,523 was collected in gross receipts taxes.

1701 N. Congress P. O. Drawer 12967 Austin, Texas 78711-2967

The Pipeline Safety Section executed 1,564 safety evaluations on gas systems and 158 on hazardous liquids systems during fiscal year 1988. During these 1,722 safety evaluations, 10,724 violations were cited in various areas of noncompliance. These safety evaluations are performed on jurisdictional intrastate pipeline systems to assure that they are being operated according to state and federal rules and regulations.

The term "hazardous liquids" encompasses many different liquid products. Crude oil, gasoline, methanol, anhydrous ammonia, kerosene, isoprene, naptha, and liquefied petroleum gas including butane, ethylene, and ethane represent some of the many liquids transported by these hazardous liquids systems throughout the state. Gas systems on the other hand, include transmission, distribution, offshore, municipal, master meter, and compressor stations. A master metered system is a pipeline system for distributing gas within a definable area such as a mobile home park, housing project, or apartment complex. The operator purchases metered gas from an outside source for resale through a gas distribution pipeline system. It is estimated that there are over 10,000 master metered systems in Texas.

In addition to routine safety evaluations, on-site accident investigations and special investigations are performed in an effort to preserve human life, prevent the destruction of property, and reduce the loss of natural resources. Through this effort, 74 accident investigations and 118 special investigations were conducted this fiscal year.

The Utility Rate Analysis Activity holds hearings to gather evidence concerning gas utility applications, analyzes the evidence, and recommends disposition to the Commission. In fiscal year 1988, the section received 434 applications and completed 634 applications. Of the applications completed, 88 percent were within the Commission's original jurisdiction and included rates for unincorporated areas immediately surrounding municipalities, called "environs," pipeline to pipeline rates, pipeline to industrial rates, city gate rates, and rural burnertip rates. Less than one percent of the cases involved appeals from city rate determinations and nearly 12 percent involved other types of cases including safety violations, audit exceptions, jurisdictional questions, abandonment, sale of property, and mergers.

The Reports and Statistics Section gathers data from gas utilities subject to Commission regulation, conducts research, and publishes reports on matters of relevance to Commission responsibilities including the annual report. This section also monitors compliance with docket orders, tariff filings, and the statewide curtailment program. This section responded to 4,606 complaints and inquiries from the general public during fiscal year 1988, and contacted 350 master meter operators to ensure compliance with the master meter profit rule. This sections also serves as a centralized micrographics facility.

Program Management plans, organizes, coordinates, and controls the work of the division as a whole. It is also responsible for fiscal matters, rulemaking proceedings, statutory notices, and communication between the division and other parts of the Commission.

In accordance with TEX. REV. CIV. STAT. ANN. art 6061, (Vernon 1962), we hereby transmit the Annual Report of the Gas Utilities Division of the Railroad Commission of Texas for Fiscal Year 1988.

Respectfully submitted,

James E. (Jim) Nugent, Chairman

Kent Hance, Commissioner

John Sharp, Commissioner

Raymond A. Bennett
Director

The weighted average 10 Mcf bill for residential customers in the 25 cities listed above:

January 1980 - $30.70 January 1982 - $44.79 January 1984 - $53.45 January 1986 - $50.99 January 1988 - $46.46
January 1981 - $36.57 January 1983 - $54.96 January 1985 - $53.45 January 1987 - $47.95

The median 10 Mcf bill in January 1988 was $48.25 (Lubbock, Midland, and Odessa, Texas). The base rate increased in Brownsville, Dallas, McAllen and Temple by approval of the city and decreased in Houston, San Antonio and Waco. Base rates did not change in the remaining 18 cities. The net 10 Mcf gas bill increased in Abilene, Amarillo, Beaumont, Brownsville, Bryan, Corpus Christi, Dallas, El Paso, Fort Worth, Galveston, Laredo, McAllen, San Angelo, Sherman, Temple, Texarkana, Waco, and Wichita Falls and decreased in the remaining cities.

The above 25 cities have 1,783,684 residential customers which represent approximately 56% of the total residential customers in the state. (This information is based upon municipally-owned and investor-owned company reports.)

ALG - ARKLA, Inc.; ENG - Energas; ETX - Entex; LSG - Lone Star; MUN - Municipally-Owned; RGV - Rio Grande Valley; SUG - Southern Union.

Waco	2,126	1,884	2,156	-11.4	1.4
Wichita Falls	3,011	2,624	2,969	-12.9	-1.4
Mean (for 25 cities)	2,158	1,856	2,122	-14.0	-1.7

*Degree-days measure the deviation from normal temperature by accumulating the difference between 65°F and the daily mean temperature. A mean temperature of 60° for one day would be five heating degree days. A greater number of heating degree-days than normal indicates colder weather. Less heating degree-days than normal indicate warmer weather. These figures are on a calendar year basis.

**Normal Heating Degree-Days are based on NOAA records. The above norms are based on the 30-year period from 1951-1980.

*Net Loss

Many gains are reported this year. The companies attribute this mainly to a carry-over of unbilled gas from the previous year.

As of December 31, 1987, there were 55 investor-owned gas distribution systems in Texas. Britton & Son, Inc. had not reported when this report was prepared.

*Net Loss

This report is based on July 1, 1986 - June 30, 1987 data. It has been expressed to us by companies and the public that this reporting period would reflect a more accurate percentage of unaccounted for gas because the cut-off dates are in the summer when temperatures/consumption are fairly consistent. Table 2, in comparison, is based on January 1 - December 31, 1987, data. The gains reported this year have been attributed to carry-over of unbilled gas from the previous year.

*This percentage represents a net gain. In most cases this was due to unbilled gas from 1986. However, Mitchell County Utility Co., attributes the large gain for the Westbrook environs to a difference in meter reading dates for incorporated and unincorporated customers. All percentages not asterisked represent a net loss.

*Net Loss

The gas systems attribute the gains to mismeasurement and carry-over of unbilled gas from the previous year.

Municipally-owned systems are not regulated by the Railroad Commission except in the area of pipeline safety. There are 89 municipally-owned systems. Four systems had not reported when this report was prepared: Anahuac, Brazoria, Bullard, and Rising Star.

Southwest Texas Municipal Gas Corp. serves Alpine, Balmorhea, Brogado, Fort Davis, Marfa, Saragosa, and Toyahvale.

Texas Western Municipal Gas Corp. serves Lobo Rurals, Van Horn, and Wildhorse Rurals.

Municipally-owned systems are not regulated by the Railroad Commission except in the area of pipeline safety. There are 89 municipally-owned systems. Four systems had not reported when this report was prepared: Anahuac, Brazoria, Bullard, and Rising Star.

Southwest Texas Municipal Gas Corp. serves Alpine, Balmorhea, Presidio, Fort Davis, Marfa, Saragosa, and Toyahvale.

Texas Western Municipal Gas Corp. serves Lobo Rurals, Van Horn, and Wildhorse Rurals.
